Hi Chris,

The ESA memo is ready for your signature. Mike- when I changed the document to a PDF, I was able to see the bookmark error. It is corrected now, thanks for spotting that!

Thanks! Yes, all OGC edits have been incorporated. On the last round, Ben's only comments were confirming I had addressed his previous comments and in the email he stated that he had no further edits.

I couldn't find a bookmark error on pg 8. Eric double checked for me and at least the references on that page all lined up. Maybe you could share your screen sometime today to point it out?

Amanda,

Looks good to me. Can you confirm we incorporated all OGC edits? Also, p. 8 had a bookmark error on the 2nd to last paragraph. Great job!

Hi Mike and Chris,

Here is the final draft version of the ESA memo. If all looks good to you, I'll remove the draft headers for signature this week.

Sound like a plan?
